Position Title: A R M R Web Developer

Classification: Associate/Staff Programmer Analyst

Location: Sun Center III

Section/Unit: Collection Systems Bureau

Salary Range: Per Classification

Number of Vacancies: 1

## Job Description: (includes typical duties)

The Accounts Receivable Management Reporting System (ARMR) is a data warehouse which provides management reporting information to support the Accounts Receivable Management Division's collection programs. As a valued member of the ARMR Team in the Collection Systems Development Section, your responsibilities include design, develop, test and implement new reporting web processes to meet the needs of the business. In addition, you will identify and resolve technical issues and supply customer support on a continual basis. You will work on a multidisciplinary team, working with other system analysts and programmers.

## Required Knowledge, Skills, and Abilities:

We are looking for motivated and enthusiastic individuals to become part of our team.

- Strong verbal and written communication skills as well as organizational, analytical and problem solving skills
- Ability to communicate effectively and maintain cooperative working relationships with other staff
- Ability to effectively perform in a fast paced environment where priorities are constantly changing
- Ability to take initiative, multi-task, use tact and good judgement
- Ability to work both independently and in a team environment
- Knowledge and experience with Visual Basic, Java Script, VB Script, ASP Application Development, and CSS
- Willingness to adjust work schedule to meet operational needs
- Willingness to learn and comprehend new complex technology.

## Desirable Experience/Qualifications:

- Knowledge of Personal Income Tax and Bank and Corporation collection programs
- Knowledge of COM+ Development
- Knowledge of Microsoft SQL Server, including Analysis Services and Reporting Services
- Knowledge of XML
- Knowledge of ActiveX
